Candidate Answers Broken Down By Individual Questions

The following questions were asked of the County Commission Candidates. Here are all of the candidate's answers organized by question (the last question has been broken down by district):

[When elected, would you vote to strengthen the 35 foot height ordinance, and would you vigorously oppose any effort to rescind the 35 foot maximum height limit for structures in Monroe County?](#)

[When elected, would you vote against all proposals for high rise condos and hotels that could lead to the expedited termination of the FEMA Downstairs Enclosure Pilot Program?](#)

[When elected, would you vote for any action by the commission that could lead to the expedited termination of the FEMA Downstairs Enclosure Pilot Inspection Program?](#)

[When elected, would you vote for any action related to the county requesting that FEMA treat all Monroe county homeowners the same in regard to ending the inspection of downstairs enclosures triggered by the pulling of building permits in unincorporated Monroe County because it is inequitable that these inspections only affect 41% of Monroe County's total population?](#)

[When elected, would you do everything in your power as commission to ensure the continuation of the Department of Community Affairs as the state land planning agency, and would you do everything in your power as commissioner to fight for the continued designation of the Florida Keys as an Area of Critical State Concern which prevents high rise condos and hotels from being built in the keys? District 2 Candidate Response](#)

[When elected would you do everything in your power as commissioner to ensure the continuation of the Department of Community affairs as the state land planning agency, and would you do everything in your power as commissioner to fight for the continued designation of the Florida Keys as an Area of Critical State Concern which prevents high rise condos and hotels from being built in the keys? District 4 Candidate Response](#)
